

Multi Purpose Cam & Groove Coupling (Camlock) are using widely in Petrochemical Industry, Oil, and Petroleum product also mostly using for other liquid as like water and chemical base transfer. Easy Handling in usage is the key of product to use in almost all fluid transfer application. **The cam & Groove (Camlock)** couplings meet the dimensional and performance requirements of US specification **MIL-C-27487**.

Cam & Groove Coupling			Type A	Type B
Type A	Size	Thread	Part No.	Part No.
	1/2"	BSP/NPT	SS-A-050	SS-B-050
	3/4"	BSP/NPT	SS-A-075	SS-B-075

Important Note :

- Type A** = Male Adaptor with BSP/NPT Female Thread
- Type B** = Female Coupler with BSP/NPT Male Thread
- Type C** = Female Coupler Hose Shank
- Type D** = Female Coupler with BSP/NPT Female Thread
- Type E** = Male Adaptor Hose Shank
- Type F** = Male adaptor with BSP/NPT Male Thread
- Type DP** = Dust Plug
- Type DC** = Dust Cap
